

Our Vision

Capua Palace Hospital is dedicated to serving the needs of the Maltese and international community and to administering the highest standard of patient care while fostering excellence in the provision of quality healthcare to patients and their families.

Capua Palace Hospital is conveniently situated in a quiet residential part of Sliema, yet close to all amenities. The hospital is highly recommended by health insurance companies and accepts all major credit cards making stays very convenient.

Furthermore, as part of the AX Holdings Group, Capua Palace Hospital is also able to combine the excellence of its medical services with the gracious comfort of Mediterranean hospitality offered by the Group's sister hotel The Victoria situated next door. Here patients' families will also find it convenient when visiting, finding all the modern conveniences required for a comfortable stay in its luxurious blend of Victorian decor and Four Star classification.

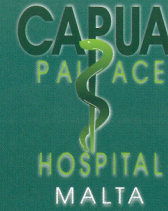

Combining
**Comfort,
Convenience
& Medical
Excellence**

Committed
to providing the
**highest quality
healthcare**

Capua Palace Hospital is Malta's first purpose-built acute general hospital, staffed with a highly experienced and committed medical team ready to assist all needs. Its clinical effectiveness and high international standards are well established, and treatments are offered also to international patients.

**A Centre
for Medical Excellence**

Capua Palace Hospital is a fully-owned subsidiary of AX Holdings, one of Malta's leading groups comprising interests in construction, hospitality, development, services and healthcare.

Rehabilitation

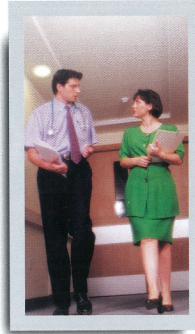

Comfort

Surgery & General Medicine

Capua Hospital excels in the provision of surgical, orthopaedic and medical services, however the hospital's main focus is its specialisation in cardiac and acute emergency care.

A whole wing is dedicated to X-Ray services. It is highly equipped with state of the art equipment required to provide safer and accurate diagnoses.

Services offered are

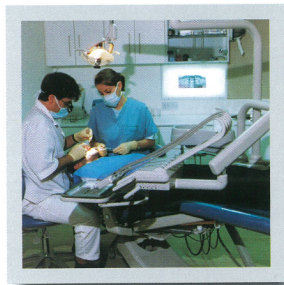

- conventional radiography
- breast screening
- ultrasound including cardiac, venous and arterial examinations
- special examinations using contrast media
- lithotripsy (kidney stone treatment without the use of surgery).

Diagnostic Imaging Department

Dental & Implantology Department

Our specialist dental department provides comprehensive services including preventive dental treatment, cosmetic dentistry, children's dentistry, implants and oral surgery.

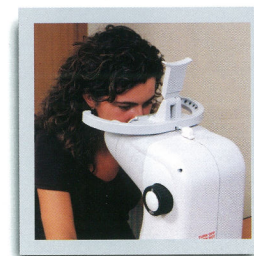

Maternity

This unit offers safe, professional and personalised care tailored to family needs starting very early, with pre-natal classes going on after the delivery with post-natal visits.

Physiotherapy

Everyone at some time suffers from a form of pain or discomfort. It may be as a result of a sport injury, an accident or persistent back pain. Whatever the cause of pain, the first priority has to be early diagnosis followed by prompt and effective treatment. Physiotherapy provides the natural approach to pain relief through rehabilitation and the prevention of further injury by assisting the body's own effort to regain full mobility and strength. Capua Hospital is staffed by experienced qualified physiotherapists who offer treatments using the latest equipment. We provide comfortable, private treatment rooms for both in- and out-patients; also with the assistance of a rehabilitation gymnasium.

Out-Patients Department

Our Out-Patients department provides a wide variety of routine screening tests aimed at prevention and early diagnosis of all sex and age related illnesses. It also offers laboratory and consultation services provided by highly experienced and renowned consultants.
